

2019 Community Leadership Program

Leading NQ Dry Tropics

Grow confidence.

Achieve more.

Change your leadership beliefs.

Leadership is not about position, it is about working together to create the conditions to build the future we want for ourselves, and our region.

"Leadership : Influencing people to strive willingly together to achieve shared goals."

THE PROGRAM

Wednesday 17th to Friday 19th July, 2019 - Bowen

Applications are now open to attend the "Leading the NQ Dry Tropics" Community Leadership Program 2019.

This three-day intensive program will be active, challenging, practical and fun.

You will work with people from diverse sectors, ages, cultures and personal attributes. Together we will develop a shared understanding of new leadership thinking, and skills for leading through change, personal and team effectiveness and growing strong communities, while developing the relationships and practices to learn together over the long term.

OUTCOMES

- Improved ability to influence positive change in self, family, community, business and industry
- Improved ability to work effectively with others
- Greater confidence and courage for informed decision making and sharing leadership

WHO IS VISION21?

Vision21's members are graduates of the Building Rural Leaders program. We are passionate about growing Queensland regions and building regional people's confidence and skills to realise their own future. By building a critical mass of people who share knowledge and skills to make positive change happen, communities can be resilient to unchosen change, such as economic, environmental or policy changes. They are better able to take control of their own futures.
